INDEPENDENT AUDITORS' REPORT

September 6, 2022

Members of the Board of Park Commissioners
Hickory Hills Park District
Hickory Hills, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Hickory Hills Park District, Illinois, as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Hickory Hills Park District, Illinois, as of April 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hickory Hills Park District, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

HICKORY HILLS PARK DISTRICT, ILLINOIS

Management's Discussion and Analysis

April 30, 2022

Our discussion and analysis of the Hickory Hills Park District's financial performance provides an overview of the District's financial activities for the fiscal year ended April 30, 2022. Please read it in conjunction with the District's financial statements, which can be found in the basic financial statements section of this report.

FINANCIAL HIGHLIGHTS

- The District's net position increased from a restated balance of \$8,189,531 to \$8,591,446, an increase of \$401,915 or 4.9%.
- During the year, government-wide revenues totaled \$2,037,599, while government-wide expenses totaled \$1,635,684 resulting in an increase to net position of \$401,915.
- Total fund balances for the governmental funds were \$2,743,080 at April 30, 2022 compared to a balance of \$2,731,784 in the prior year, an increase of \$11,296 or 0.4%.
- Beginning net position was restated from \$8,051,257 to \$8,189,531 to correct an error in recognition of prior year capital assets.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances.

Fund financial statements can be found in the financial section of this report. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operation in more detail than the government-wide statements by providing information about the District's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's parks, is needed to assess the overall health of the District.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements report functions of the District that are principally supported by taxes and charges for services revenues (governmental activities). The governmental activities of the District include general government and recreation.

USING THIS ANNUAL REPORT - Continued

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District only maintains governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Recreation Fund, Special Recreation Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered major funds. Individual fund data for the remaining two nonmajor governmental funds is provided in the form of combining schedules elsewhere in this report.

The District adopts an annual appropriated budget for all of the governmental funds, except for the Liability Insurance and Workers' Compensation funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension obligations, retiree benefits plan, and budgetary comparison schedules for the General Fund and major special revenue funds, the Recreation Fund and the Special Recreation Fund.

April 30, 2022

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$8,591,446.

	Statement of Net Position	
	2022	2021
Current and Other Assets	\$ 4,732,975	4,387,779
Noncurrent Assets	9,119,305	9,172,052
Total Assets	13,852,280	13,559,831
Deferred Outflows	113,712	163,823
Total Assets/Deferred Outflows	<u>13,965,992</u>	<u>13,723,654</u>
Long-Term Debt	2,471,839	3,226,287
Other Liabilities	718,296	516,609
Total Liabilities	3,190,135	3,742,896
Deferred Inflows	2,184,411	1,929,501
Total Liabilities/Deferred Inflows	<u>5,374,546</u>	<u>5,672,397</u>
Net Position		
Net Investment in Capital Assets	6,158,305	5,824,052
Restricted	310,533	261,957
Unrestricted	<u>2,122,608</u>	<u>1,965,248</u>
Total Net Position	<u><u>8,591,446</u></u>	<u><u>8,051,257</u></u>

A large portion of the District's net position, \$6,158,305, or 71.7%, reflects its net investment in capital assets (for example, land, construction in progress, buildings, land improvements, playgrounds and equipment, and vehicles), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$310,533 or 3.6%, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining surplus of \$2,122,608, or 24.7% represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Net Position - Ending	<u><u>8,591,446</u></u>	<u><u>8,051,257</u></u>

Net position of the District's governmental activities increased by 4.9% from a restated \$8,189,531 to \$8,591,446. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled \$2,122,608 at April 30, 2022.

Governmental Activities

Revenues for governmental activities totaled \$2,037,599, while the cost of all governmental functions totaled \$1,635,684. This results in a surplus of \$401,915. In 2021, revenues of \$2,153,153 exceeded expenses of \$1,499,547, resulting in a surplus of \$653,606. The surplus in 2022 was due in large part to the charges for services increase of \$310,205 offsetting the increase in recreation expenses of \$159,577 as restrictions related to COVID-19 were lifted.

Governmental Activities - Continued

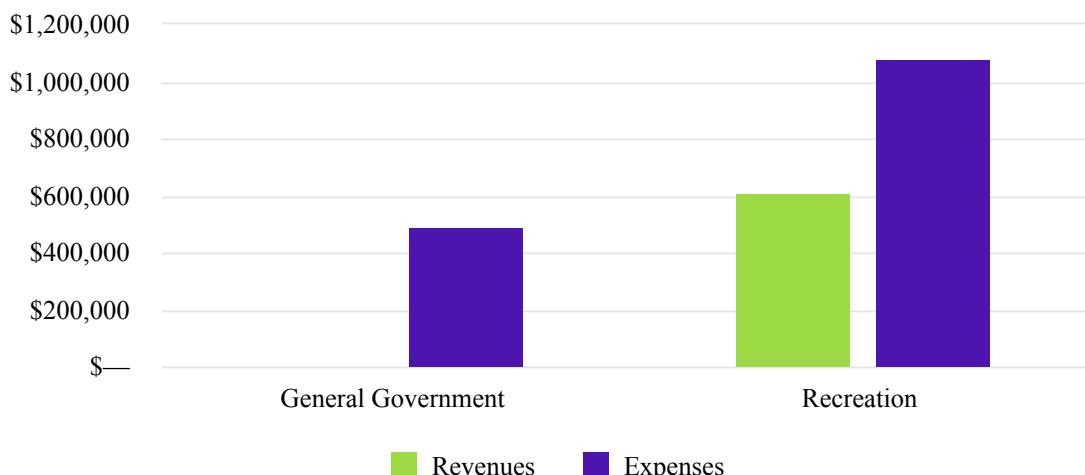

The following chart graphically depicts the major revenue sources of the District. It depicts very clearly the reliance of property taxes and charges for services to fund governmental activities.

*Percents do not total to 100% due to investment losses being reported in the current year.

The 'Program Revenues and Expenses' Table identifies those governmental functions where program expenses greatly exceed revenues. The general government and the recreation functions charge user fees for services provided. The user fees charged do not cover the expenses in the general government or recreation functions, which furthermore signifies the District's reliance on general revenues such as property taxes.

Management's Discussion and Analysis

April 30, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$2,743,080, which is 0.4% higher than last year's ending fund balance of \$2,731,784.

In the current year, governmental fund balances increased by \$11,296.

The General Fund reported a decrease of \$90,128 in fund balance. This was due to investment losses of \$146,807 being recorded in the current year.

The Recreation Fund reported an increase of \$153,873 due to the district increases in program revenue once opened up after the COVID-19 pandemic. The Recreation actual revenues were lower than budgeted revenues. Actual revenues for the current year were \$1,092,590 compared to budgeted revenues of \$1,189,883. The Recreation Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$938,717 while budgeted expenditures totaled \$1,197,050. This is due to budgeted expenditures being set conservatively high and the Coronavirus.

The Special Recreation Fund reported an increase of \$54,139 due to spending \$150,164 on ADA improvements to the Cynthia Neal Center the previous year. SWSRA received \$72,906 this fiscal year and Oak Lawn Special Recreation received \$280 (difference of non-resident & resident rate). Additionally, \$24,500 was spent on inclusion, a replacement of the old AED at the CN Center, playground surfacing, concrete surfacing and fitness strength equipment. The fund balance for the Special Recreation Fund is \$54,139 and will be used for Osborne Park ADA improvements, Splash Pad features as well as miscellaneous improvements to the district's facilities. The Special Recreation actual revenues were lower than budgeted revenues. Actual revenues for the current year were \$151,546 compared to budgeted revenues of \$151,813. This resulted primarily due to a lower amount received in tax distributions. Tax distributions for 2019 was \$165,062 with the tax rate .0454 and \$152,978 in 2020 with the tax rate of .0420. The Special Recreation Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$97,407 while budgeted expenditures totaled \$145,812. This is due to \$50,000 to be used for Osborne Park for the following fiscal year.

Debt Service reported a decrease of \$44,884 due to the increase in the restricted future debt payments.

The Capital Projects Fund reported a decrease of \$64,840 due to the landscaping for the CN Renovation and a repair to the irrigation line (\$12,441). Also, the district purchased a Ground Master Mower (\$52,400). Assets were entered as Construction in Progress last fiscal year (\$2,774,882) then this fiscal year there was an adjustment for the actual cost (\$2,913,156) which was an increase of \$138,274. Then there were disposals in the amount of \$210,648. So, that is a decrease of \$72,374 in assets.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District did not amend the General Fund budget during the year. The General Fund actual revenues were lower than budgeted revenues. Actual revenues for the current year were \$379,137 compared to budgeted revenues of \$534,983. This is primarily due to investment losses (\$146,807) being recorded in the current year.

The General Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$469,265 while budgeted expenditures totaled \$545,700.

The administration/clerical expenditures were higher than budgeted expenditures by \$4,071, due to expenditures set conservatively high and due to the turnover in the full-time CN secretary. The district went through four different employees for this position during the fiscal year with one to two months of a gap between each turnover.

The maintenance salaries expenditures were lower than budgeted expenditures by \$33,955, due to expenditures set conservatively high and due to the Maintenance Manager retiring in February 2022. A full time employee was promoted to this position in December 2021 and the new full time maintenance employee was hired in January 2022.

The employee health insurance expenditures were lower than budgeted expenditures by \$14,497, due to the turnover of the two full time positions and the 30-day waiting period for new employees.

The contractual service expenditures were lower than budgeted expenditures by \$3,035.

The general supplies expenditures were lower than budgeted expenditures by \$4,903, due to only purchasing items that were absolutely necessary.

The maintenance expenditures were lower than budgeted expenditures by \$18,510, due to only purchasing items that were absolutely necessary.

The building supplies expenditures were lower than budgeted expenditures by \$2,007. Snow removal increased so additional salt was purchased the several American flags were replaced for the outdoor flagpoles.

The equipment improvements expenditures were lower than budgeted expenditures by \$1,135.

The social security (FICA) expenditures were lower than budgeted expenditures by \$2,464, due to limited workforce when facilities could open.

Actual expense for Cleaning supplies increased (\$9,889) and janitorial supplies (\$1,609) due to the previous fiscal year, as the CN building was shut down for six months during the building renovation.

Gas & Oil expenses increased (\$1,054) due to rising gasoline prices.

Audit expenses decreased by \$2,200 due to the previous year's grant attestation.

HICKORY HILLS PARK DISTRICT, ILLINOIS

Notes to the Financial Statements

April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Hickory Hills Park District (the District) is duly organized and existing under the provisions of the laws of the State of Illinois and is operating under the provisions of the Park District Code of the State of Illinois.. The District operates under the commissioner-director form of government (an elected Board of five District Commissioners) and provides a variety of recreational facilities, programs and services.

REPORTING ENTITY

In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the District. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). The District's preservation of open space, recreational program activities, development and maintenance of the District's various recreation, and general administration are all classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities columns are: (a) presented on a consolidated basis and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions (general government, recreation, etc.). These functions are supported by general government revenues (property and personal property replacement taxes, certain intergovernmental revenues, interest income, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property and personal property replacement taxes, certain intergovernmental revenues, interest income, etc.).

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

BASIS OF PRESENTATION - Continued

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. The District's funds are all reported as governmental funds. The emphasis in fund financial statements is on the major funds.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses) for the determination of major funds. The District selectively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a single column in the fund financial statements. A fund is considered major if it is a primary operating fund of the District or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund is the general operating fund of the District. It accounts for all revenues and expenditures of the District which are not accounted for in other funds including impact fees. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than capital project funds) that are legally restricted to expenditures for specified purposes. The District maintains four special revenue funds. The Recreation Fund, a major fund, is used to account for revenues and expenditures related to recreational programs offered and park maintenance by the District. The Special Recreation Fund, also a major fund, is used to account for revenues and expenditures related to the provision of recreational services for individuals with disabilities. The District, funded by a special levy, contributes annually for membership in the South West Special Recreation Association.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Governmental Funds - Continued

Debt Service Funds are used to account for the accumulation of resources, and the payment of, general long-term debt principal and interest. The Debt Service Fund, a major fund, is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds are used to account for all resources used for the acquisition or construction of major capital assets. The Capital Projects Fund, a major fund, is used to account for various identified capital projects such as land acquisition and land development as well as capital equipment and supplies.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate.

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the “economic resources” measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Basis of Accounting - Continued

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of purchase.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes.

Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepays in both the government-wide and fund financial statements. Prepays are valued at cost, which approximates market. The costs of governmental fund-type prepays are recorded as expenditures when consumed rather than when purchased.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Capital Assets

Capital assets purchased or acquired with an original cost of \$1,000 or more, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings	50 Years
Land Improvements	20 Years
Playgrounds and Equipment	5 - 20 Years
Vehicles	8 Years

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Compensated Absences

Accumulated vacation leave expected to be liquidated with expendable available financial resources are recognized as an expenditure and as a liability of the governmental fund from which they are expected to be paid. Employees earn vacation and are required to use vacation days within six months of the end of the anniversary year in which it is earned. Any unused vacation days after this period is lost. Eligible employees receive two personal days that they may take any time during the calendar year. Unused personal days will be added to employee's accumulative sick days each year. These expenditures are expected to be paid from the corporate and recreation funds as in previous years. Accumulated vacation leave is recognized when earned in the government-wide financial statements. Sick days are not payable upon termination and are not accrued in the financial statements.

Long-Term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the governmental activities on the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

All departments of the District submit requests for appropriation to the District's administrator so that a budget may be prepared. The budget is prepared by fund and includes information on the past year, current year estimates, and requested appropriation for the next year. The proposed budget is presented to the governing body for review.

The governing body holds public hearings and may add to, subtract from, or change appropriation, but may not change the form of the budget. Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, no supplementary appropriations were made.

Budgetary information for individual funds is prepared on the same basis as the basic financial statements. The budget is prepared in accordance with the Illinois Park District Code and is derived from the combined annual budget and appropriation ordinance of the District. Working budgets are prepared for all governmental funds. All budgets are prepared based on the annual fiscal year of the District. Budgetary funds are controlled by an integrated budgetary accounting system in accordance, where applicable, with various legal requirements which govern the District.

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the District's funds.

Permitted Deposits and Investments - Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, which is the price for which the investment could be sold.

Investments - Continued. Debt Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investment policy limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed for operations.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy limits its exposure by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government. At year-end, the District's investments in U.S. Agency Securities and Municipal Bonds were not available and the District's investment in the Illinois Funds was rated AAA by Standard and Poor's.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy does not address custodial credit risk. At year-end, \$29,693 of the bank balance of the deposits represents cash at paying agent for debt service payments.

For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy does not address custodial credit risk. The District's investment in the Illinois Fund is noncategorizable and is not subject to custodial credit risk.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not address concentration of credit risk. At year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

PROPERTY TAXES

Property taxes for 2021 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about March 1 and August 1. The County collects such taxes and remits them periodically.

LONG-TERM DEBT

General Obligation Bonds

The District issues general obligation (alternate revenue source) bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

Issue	Beginning Balances	Issuances	Retirements	Ending Balances
\$1,165,000 General Obligation Limited Park Bonds of 2020A - Due in annual installment of \$377,000 to \$401,000 plus interest at 1.82% to 1.85% through December 1, 2022.	\$ 788,000	—	387,000	401,000
\$2,560,000 General Obligation (Alternate Revenue Source) Bonds of 2020B - Due in annual installments of \$160,000 to \$375,000 plus interest at 2.03% through December 1, 2032.	2,560,000	—	—	2,560,000
	3,348,000	—	387,000	2,961,000

Pledged Revenues

The District issued the General Obligation Alternate Revenue Source Bond Series of 2020B. These bonds are payable from a pledge of the District's General Fund revenues. During the current fiscal year, no pledged General Fund revenue was used for paying the Series 2020B.

	<u>3,618,811</u>	<u>3,124</u>	<u>829,966</u>	<u>2,791,969</u>	<u>565,899</u>

For the governmental activities, the compensated absences, the net pension liability/(asset), and the total OPEB liability are generally liquidated by the General Fund or the Recreation Fund. Payments on the general obligation bonds are made by the Debt Service Fund.

Legal Debt Margin

Chapter 70, Section 1205/6-2 of the Illinois Compiled Statutes provides "...for the payment of land condemned or purchased for parks or boulevards, for the building, maintaining, improving and protection of the same and for the payment of the expenses incident thereto, or for the acquisition of real estate and lands to be used as a site for an armory, any park district is authorized to issue the bonds or notes of such park district and pledge its property and credit therefore to an amount including existing indebtedness of such district so that the aggregate indebtedness of such district does not exceed 2.875% of the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the issue from time to time of such bonds or notes or, until January 1, 1983, if greater, the sum that is produced by multiplying the district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, if a petition, signed by voters in number equal to not less than 2% of the voters of the district, who voted at the last general election in the district, asking that the authorized aggregate indebtedness of the district be increased to not more than .575% of the value of the taxable property therein, is presented to the Board and such increase is approved by the voters of the district at a referendum held on the question."

FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Commissioners; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Commissioners' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Commissioners itself or b) a body or official to which the Board of Commissioners has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Commissioners, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The District's policy manual states that the General Fund should maintain a minimum unrestricted fund balance equal to 30% of operating expenditures.

RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the District's employees. The District has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. The Library currently reports all its risk management activities in the General Fund. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

Park District Risk Management Agency (PDRMA) - Property and Casualty Program

Since June 1, 1992, the District has been a member of the Park District Risk Management Agency (PDRMA), a joint risk management pool of park and forest preserve districts, and special recreation associations, through which property, general liability, automobile liability, crime, boiler and machinery, public officials' and workers compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit. Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the District.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body. The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigations and settlement, and to follow risk management procedures as outlined by PDRMA.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's Property/Casualty Program balance sheet at December 31, 2021 and the statement of revenues and expenses for the period ending December 31, 2021. The District's portion of the overall equity of the pool is 0.135% or \$77,292.

Since 96.36% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Member Balances are adjusted annually as more recent loss information becomes available.

Park District Risk Management Agency (PDRMA) Health Program

Since March 1, 1999, the District has been a member of the Park District Risk Management Agency (PDRMA) Health Program, a health insurance pool of park districts, special recreation associations and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$300,000. Until January 1, 2001 the PDRMA Health Program was a separate legal entity formerly known as the Illinois Park Employees Health Network (IPEHN).

Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

As a member of the PDRMA Health Program, the District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the member agency and PDRMA Health Program is governed by a contract and by-laws that have been adopted by a resolution of each member's governing body. Members are contractually obligated to make all monthly payments to the PDRMA Health Program and to fund any deficit of the PDRMA Health Program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

The following represents a summary of PDRMA's Health Program balance sheet at December 31, 2021 and the statement of revenues and expenses for the period ending December 31, 2021.

CONTINGENT LIABILITIES

Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Financial Impact from COVID-19

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the District's operations and financial position cannot be determined.

JOINT VENTURES - SOUTHWEST SPECIAL RECREATION ASSOCIATION

The District, five other contiguous park districts and two municipalities have entered into a joint agreement to provide cooperative recreational programs and other activities for handicapped and impaired individuals. Each agency shares equally in the South West Special Recreation Association (SWSRA) and generally provides funding. Each member agency participating in SWSRA selects one individual, usually from its own Board or professional staff, to sit on the Board of Directors of SWSRA. The Board of Directors adopts its own budget based on funds being contributed by its members and programs to be conducted and generally adopts the operating policies, invests funds and otherwise directs the operations of SWSRA independent of its member agencies. The District contributed \$74,493 to SWSRA during the current fiscal year. Separate financial statements for SWSRA are available from SWSRA's management.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund (IMRF)

The District contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Plan Descriptions

Plan Administration. All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Descriptions - Continued

Plan Membership. As of December 31, 2021, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	12
Inactive Plan Members Entitled to but not yet Receiving Benefits	7
Active Plan Members	<u>10</u>
Total	<u>29</u>

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended April 30, 2022, the District's contribution was 13.36% of covered payroll.

Net Pension Liability/(Asset). The District's net pension liability/(asset) was measured as of December 31, 2021. The total pension liability used to calculate the net pension liability/(asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2021, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age
	Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.25%
Inflation	2.25%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions - Continued. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	25.00%	2.00%
Domestic Equities	39.00%	4.50%
International Equities	15.00%	5.75%
Real Estate	10.00%	5.90%
Blended	10.00%	4.30% - 8.10%
Cash and Cash Equivalents	1.00%	1.70%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the net pension liability/(asset) of the District calculated using the discount rate as well as what the District's net pension liability/(asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

OTHER POST-EMPLOYMENT BENEFITS

General Information about the OPEB Plan

Plan Description. The District's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for all permanent full-time general employees of the District. RBP is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided. RBP provides healthcare benefits for retirees. The benefit terms provide the retiree pay the full cost of premiums for non-Medicare-eligible retirees and Medicare-eligible retirees. Coverage is secondary to Medicare once eligible.

Plan Membership. As of April 30, 2022, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	—
Inactive Plan Members Entitled to but not yet Receiving Benefits	—
Active Plan Members	<u>7</u>
 Total	<u><u>7</u></u>

Total OPEB Liability

The District's total OPEB liability was measured as of April 30, 2022, and was determined by an actuarial valuation as of September 30, 2021.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the September 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Salary Increases	Varies from 3.39% to 9.85% by Age and Years of Service
Discount Rate	2.26%
Healthcare Cost Trend Rates	5.00% graded to 4.50% over 15 years for medical. 7.00% graded to 4.50% over 17 years for prescription drug.
Retirees' Share of Benefit-Related Costs	100% of Projected Health Insurance premiums for retirees

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

The Special Revenue Funds are created to account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are legally restricted to expenditure for specified purposes.

Recreation Fund

The Recreation Fund is used to account for revenues and expenditures related to recreational programs offered and park maintenance by the District.

Special Recreation Fund

The Special Recreation Fund is used to account for revenues and expenditures related to the provision of recreational services for individuals with disabilities. The District, funded by special levy, contributes annually for membership in the South West Special Recreation Association.

Police Program Fund

The Police Program Fund is used to account for revenues derived from a specific annual property tax levy and expenditures of these monies for police services throughout the District.

Unemployment Fund

The Unemployment Fund is used to account for revenues derived from a specific annual property tax levy and expenditures of these monies for payment of unemployment insurance expenditures.

DEBT SERVICE FUND

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for various identified capital projects such as land acquisition and land development as well as capital improvements and facilities including equipment and supplies.
